## The Daily Standard.

Monday, December 12, 1870. The Omineca Disgings.

We have not space this morning for CATALOGUE. our usual leader, owing to the demand for space by advertisements and telegraphic news. We have, however, enough space to note that the recent arrivals from Omineca, prove beyond a doubt, that rich and extensive gold diggings have been discovered. What was doubtful as to Omineca is perfectly true as to Germansen Creek. On the latter creek the claims yield from half an ounce to \$100 per day. Every man there thinks his claim is the best, so evenly is the gold distributed up and down the creek. The diggings are rich man's diggings with poor man's capital. No such diggings have ever been found on the Pacific coast since the early days of California. coast since the early days of California. Every characteristic of the Omineca country indicates to experienced miners that another El Dorado has been discovered. There is no mistake about it whatever. Next spring we expect a rush to the mines; and next fall there will be as intense an excitement as there was in the fall of 1861 after the discovery of Cariboo mines. Two routes will be open to reach the mines—the one by Fraser river and the other by the Skeens or coast rause. The probabilities are that more miners will follow the Fraser Valley in the spring than will go by the Skeens; but there seems to be a well-grounded opinion that as soon as the Skeens route is open, and all the modern facilities for travel placed upon it, the whole travel from the lower country will skeens route is open, and all the modern facilities for travel placed upon it, the whole travel from the lower country will skeens route is open, and all the modern facilities for travel placed upon it, the whole travel from the lower country will skeens route is open, and all the modern facilities for travel placed upon it, the take the Skeens route. Till theu, cautious miners will take the Fraser route, believing that the longest way up through the country will be the safest way to the Omineca mines.

### Mootenay Correspondence.

EDITOR DAILY STANDARD :- The Government Express arrived here on the 7th inst.
and with it the writ for Election, also a gentleman from Victoria, Mr. John Jessop, a candidate for Legislative honors. As usual we
only got the limits of the law eight days notice for this district, which as you are aware
comprises the Columbia as far as Big Bend
covering an area of several hundred miles
and for mach as artensive district we conand for such an extensive district we considered an eight days notice rather short. It was generally believed that Mr. James W. Galbraith, who has been identified with W. Galbraith, who has been identified with the district, since gold was discovered in 1864 would have been the candidate, and we have no hesitation in saying that he would have been elected without opposition—as he was extremely popular, always identifying himself with the people's interest not only on the stump but thro' the columns of the press but he left a few weeks since for the new but he left a few weeks since for the new LADIES' and Gents' Superior Gold Province of Manitoba with a party of four LADIES' and Gents' Superior Gold ere he will no doubt make for him self a name and where his superior abilities will be appreciated. Mr. R. J. Skinner, a clerk in the H. B. Co's store was asked to be candidate, as it was understood that he in-nded wintering in Victoria, and the electors are generally pledged to support him, before a arrival of Mr. J. Jessop, who, however,

made a favorable impression.

On the day previous to the election, a meeting of the electors, was held in Fisherville for the purpose of hearing the views of the candidates, the chair was occupied by Mr. John T. Galbraith, who stated the object of the meeting in an appropriate speech, and then introduced Mr. Jessop, who stated his views in reference to Confederation, Responsible Government, Tariff &c. going minuetly into each shewing a thorough acquaintance with the different subjects—he was followed by Mr. Skianer, who gave no uncertain sound in reference to the state of affairs now existing in the colony, promising to use his endeavors to defeat the "trickery" of the present Government Officials and a reformation of matters in regard to Kootensy, advocating the appointment of a Magistrate to reside per-manently in the district, a monthly mail, improving of the present trail, and the locating of a new road that would be open at any season of the year, all of which is much needed. So we are living in hope that things will improve under a new "regime" and that Kootenay will not be left in the hands of constables as it has been, but that the law will
be represented in its dignity as it should be
-especially in a district which has been
The Auctioneer, calls attention are not alive to their own interests, or this important district would not be as it is to-day, its resources unduveloped, and its valuable agricultural lands unsettled, and its vast stock ranges unoccupied--but "nuf sed."

The election took place on Monday 14th, with the following result: At Fisherville, money Strings 22 areas 5. at Ferry Creek

Skinner, 32 votes; Jessop, 5; at Perry Creek, Skinner, 10; Jessop, 9. Majority for Skinner, 28 votes. We cant say how Big Bend went, so that may alter things so as to give Jessop

so that may alter things so as to give Jessop a majority.

We notice by your late papers just received, that it was the intention of the Government to disfranchise this place. This we cannot understand. I think you will agree with me, that we are a law abiding people when I state that we have been without the shadow of law for the past 12 months. We have not been guilty of bribery, etc., and such acts which rames a government to take our liberty of showing who shall represent us.

We are pleased to notice the arrival of the Hon. J. C. Hanes, S. M., who has been busily engaged in hearing several important civil cases—he leaves us we regret to say in a few days. We hope he will return in spring, or some other equally efficient person, who can act in a magisterial capacity.

Mining operations for the past season are about closing, and I regret to say that the results are not at all favorable. Several parties are out prespecting, and it is believed something rich will be struck.

The Hudson Bay Co. have just closed out here, and there is now a good opening for an enterprising merchant, to commence business with miners and Indians, as a good fur trade can be done, as there is no opposition comparatively speaking—it is one of the best opening in the country.

I see that your leaders are copied in the Washington Territory and California papers.

Go on in the good work. We will have responsible government, and, instead of Downing street officials, Sir. John A. Mac-

owning street officials, Sir. John A. Mac-onald, will send us some some of his good closing if we have not the material amongst

P. S.—News from Perry Creek very encouraging three of the mining co's. are making and wages from \$10 to \$12 per day.

An old and respected miner named Mr.

John Delaney, an Irishman, died through ralysis—in was long identified with the otenay District.

OMINECA. of the Discoveries on Germansen Creek-Arrival of Ger-

By the arrival of the steamer Otter, on the discovery, the following facts in regard the mines in that country. Mr. J.I. White is a cold miner of 20 years' experience. He was in colifornia in early days, and in Cariboo from the first excitement. Mr. White, and his artner, "Black Jack," started early last gring for the Omineca country. They arrived at Vitalle Greek and prospected for 45 ings in and around the neighborhood of that Greek, but did not find gold in sufficient Greek, but did not find gold in sufficient Greek, but did not find gold in sufficient Greek and prospected there about three months, and did not find gold enough to justify them in stopping here. They left and then struck the Ominear iver, which they traveled up about 100 siles, prospecting several creeks, which espited into the river, and found gold. Mr. White thinks that some of these creeks will be germansen Greek. They then sheet of the series of these creeks will be a greek of the content o

Was reported to be discovered about 10 miles from Germansen, which prospected 25 cents to the pan. It also empties into the Omineca.

THE COUNTRY. Is mountainous, thickly wooded, with lakes and beaver dams all through it, and it is a very rough country to prospect. THE CLIMATE

Creek, but whether in paying quantities, is not known, as all the miners were busily engaged in the placer diggings, and did not turn there attention to quartz mining.

PROVISIONS on the creek, who advanced the price of provisions according to the prospects obtained were under discussion, and that the Canaby the miners, who had to pay their gold dust dian Ministers begged that the matter might as fast as they took it out, for grub, and in be left an open question. Now, we are as-consequence the men were compelled to leave sured, on the best authority, that the Canaand come to a place where they could get dian Government never uttered a single re-provisions cheaper. There are only about quest of the kind. S, much for that Minister Wa

THE OPINION OF AN OLD MINER

went for provisions.

THE SKEENA RIVER ROCTE. Mr. White and his partner left Germansen Mr. White and his partner left Germansen Sydney. In the meantime, dispatches will be received and dispatched to and from the party, and then started down he lake in a brought some dispatches for the press, from boat, crossed the portage to Babine Lake, a distance of 35 or 40 miles, and traveled about 60 miles further, which brought the party to the forks of the Skeena. The trail from Babine to the forks goes through a low tance of 160 miles. It took the party 13 days to travel from Tatlah Lake to the mouth of the Law descending from Mount Sinai; of the Law descending from Mount Sinai; of the Law descending from Mount Sinai; of the Meuse. All men from 18 to 40 ment of the Meuse. All men from 18 to 40 ment of the Meuse of Eminence, and other Works of the Skeena. There were about eight inches of Eminence, and other Works of the Considered prisoners of war, and will be and Pandora streets.

the river, and canoe travel was easy. The party had to remain fourteen days at the party nad to remain fourteen days on the Otter. telegraphed from San Juan Island that he They took passage on that vessel and arrived the men who came down, will buy provisions at that place. A short time after it was in and return to the mouth of the Skeena, by the working order, and messages were sent to Berlin, Dec. 6.—The bankers have paid in and return to the mouth of the Skeena, by the working order, and messages were sent to Berlin, Dec. 6.—The bankers have paid in next trip of the Otter, and there prepare for and fro. We received some telegrams, which a third of the \$34,000,000 loan, and owe an early start back to the mines in the spring, via the Skeena river route.

LAUGHABLE. - The anniversary leader in the Coloniet-Chronicle yesterday was a laughable affair to Victorians and British Columbians. ductors of that sheet taking credit for what DeCosmos, Harries & Co., and McClure did in founding its predecessor—the Colonist—reminds us very much of the fable of a certain long-eared animal, of the equine genus, which appeared in the lion's skin. As soon as its unmistakable voice was heard the grandlather takable voice was heard the grandtather of the horse was discovered in the skin of the lion. Among Victorians and many British Columbians, nothing is more sublimely ridiculous than to rank the Coloniet-Chronicle, under its present management, with the propri-eters and conductors of the Colonist prior to 1866. As to being the leading paper, the people's paper, why that is a preposterous assumption. If it were called the following paper, which follows and barks at the leading paper—the Standard—it would be paged paper, which follows and barks at the leading paper—the STANDARD—it would be named more correctly. We need not say that the leading paper to-day is the STANDARD. Those who don't know that fact either here or elsewhere, will be convinced of it before this time next year. For influence and wide distribution, within an without the Colony the tribution, within or without the Colony, the STANDARD has no equal to-day. Its advertising patronage is far ahead of any other journal; and its job printing office does work at ower rates than elsewhere, and does it in the test style of the "Art Preservative of at ower rates than elsewhere, and does it in the less tyle of the "Art Preservative of all Arts." Don't deceive yourselves, outsiders. We who are on the inside, laugh outswardly at the attempt of the frog to swell bacon.

Government street, received the first lot of poison, "efiquette admonishes you to touch glasses and say, "Here's hoping you'll strike it rich in the lower level."

In Honolulu, when your friend, the whaler, and no doubt, will make splendid hams and sake you to take a "fin" with him, it is asks you to take a "fin" with him, it is wardly at the attempt of the frog to swell itself to the proportions of the ox.

KNIGHY'S INLET .- Messrs. Malloy and Maloney arwied on the steamer Otter on Saturday afternoon from Knight's Inlet, where they have been prospecting for some time.
They report the Indians peaceably inclined towards the white men. Messrs. Maloney and Malloy visited the Ucletaw country and and Mailoy visited the Ucietaw country and prospected here for some time. They brought prospected here for some time. They brought down some the specimens of copper ore from four was sold to Mr. John Costello. On four was sold to Mr. John Costello. On opening it, at home, he found a gold watch the Musgrave lead. The Indians along the the Musgrave lead. coast are constantly making enquires about the Governor, and asking when he will visit the toast agah.

From Comot.-The sloop Hamley, Capt. Carlton, arrived yesterday morning, from Comiz, with sfull cargo, consisting of oats, bar is, potatoe, &c. She reports everything qui e at the settlement. ceived at the Victoria House.

Arrival of the Otter.

The H. B. Co.'s steamer Otter, Capt. Lewis, arrived on Saturday afternoon with about 20 passengers, from a visit to all the Company's stations on the coast. There has been some trouble among the Indians at Fort Simpson and a white man named Spence, Captain of mansen and Party via Skeena the sloop Yellow Lane, was shot in the foot. It appears that some time ago, a party of Fort Simpson Indians were in Victoria, and they By the arrival of the steamer Otter, on gave this man Spence some money to pur-chase whisky for them. He gave them three ingers, we learn from Mr. White, one of the party who was on Germansen Creek, after the discovery, the following facts in regard

the time Mr. White got his flume ready for work the creek was frozen, and he had to discontinue further operations. There is not much difference in the pay of the claims as prospected, which extend two miles. The creek is supposed to be from 25 to 30 miles in length, but the exact length is not known as it has only been prospected a very short distance. All the claims which were opened in the creek paid as largely as those which up the creek paid as largely as those which the last chance there will be to see the Loire had a successful engagement with the ministrels, and we hope they will get a the enemy, near Fontenov. the minstrels, and we hope they will get a good farewell benefi', as both of them de- London advices from Paris to the 4th inst.

River on the Otter.

white thinks that some of these creeks will say as well as Germansen Creek. They then struck Germansen Creek, which empties into the Omiacca river. There they found Germansen and party, who had discovered the creek about two weeks previously. They prospected the creek, found gold in paying quantities and located their ground. As far is the creek has been prospected, it has paid from \$10 to \$100 per day to the hand. By the time Mr. White got his flume ready for work the creek was frozen, and he had to discontinue further operations. There is not much difference in the pay of the claims as prospected, which extend two miles. The overnment street. R, Etc., HAS RE-Buildings, next to Fort street. no30 lm

cstandard,—Through the medium of you paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwon Lee & Co. For 24 years I suffered with neuralgis of the brain, which beffied the skull of three first-clast American physicians. Latterly bronchitis stacked myright lung, and my eyes became awfully infismed. Despairing of ever bring cured I placed myself as a list resort in the hands of Dr. Ching Fun, and after five mounts treatment I am a well man and feel that I cannot soun the eminent Chinese gentleman's praises too loudly, a that all my countrymen similarly affected may visit his and find relief, Respectfully,

JOHN HENTON, of Kentucky, U. S.

MAGIC SOAP

for doing a Large Family Washing in Two Hours, of Five or Six Dozen Pieces. 1. Cut up fine a bar of the Soap, and put one-half your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and lot
them just come to a boil; then pour out clothes and
water into a tub and let them soak twenty or thi ty
minutes, stirring them round in the tub occasionally to
loosen the dirt. Such articles as collars, wristbands or
any ar-icle very dirty, should be rubbed through the
hands a little while soaking in order to thoroughly
loosen the dirt before boiling.

2. While your clothes are soaking put the other half of
your cut Soap into your boiler, with sufficient clean
water to boil, and let it be heating. After your clothes
have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then risse,
blue and hang out to dry. If the above directions are
followed, we will guarantee your clothes clean and
white.

white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a har of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house pur poses.

Caudles, Soap, Yenst Powder,
